
LUX·PRO[®]

READY. NOW.

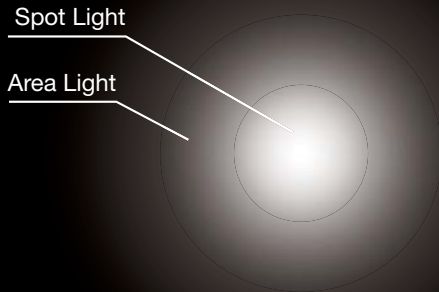

LUX·PRO®

Engineered optics that create the brightest lighting devices available using the latest L.E.D. technology.

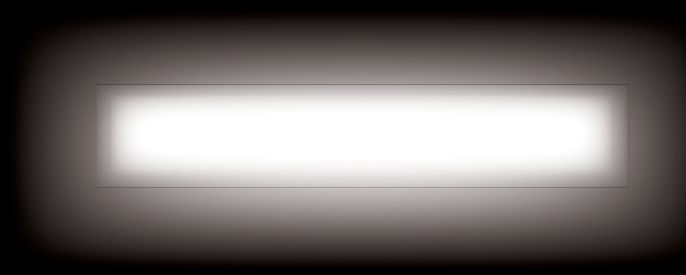

LPE™ OPTICS

Dual function: spot and area light
Maximum efficiency in light output (lumens)
LPE OPTICS for optimal light spread

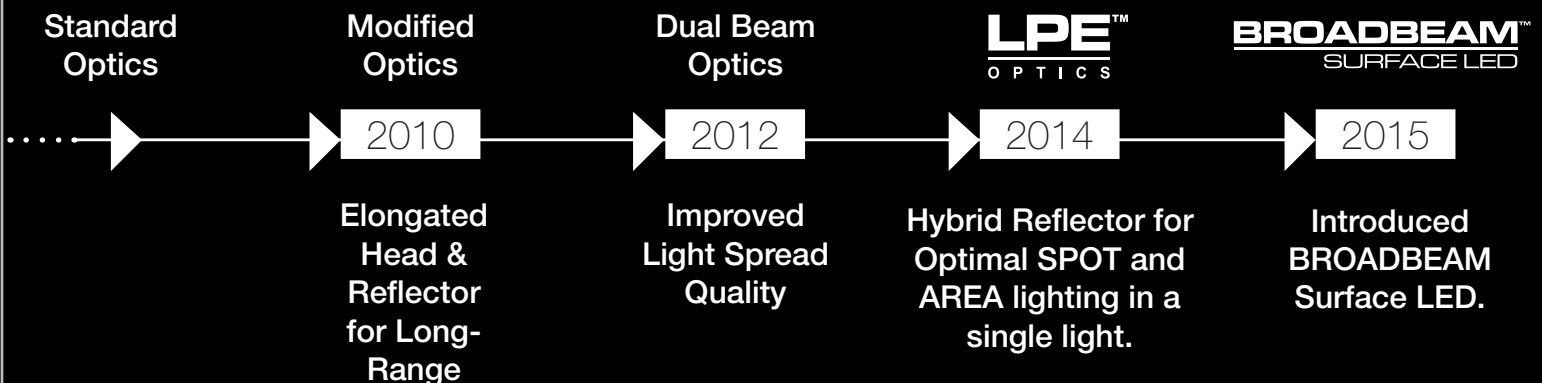

BROADBEAM™ SURFACE LED

BROADBEAM SURFACE LED technology, which is a continuous LED for area lighting. It is brighter and has a pure, even light spread.

Optics are a critical component to a flashlight. A good light with bad optics is a bad light. LUX-PRO lights are designed with sophisticated reflective coatings, properly engineered reflectors and quality materials and construction.

LUX-PRO is continually changing the industry standard.

LUX-PRO is the exclusive flashlight brand of Simple Products. **LUX-PRO** flashlights are perfect for emergency preparedness, working around the home, professional applications, area lighting and for recreational outdoor use.

Pricing. LUX-PRO flashlights are the best value, because they produce more light for the money.

Profitability. LUX-PRO flashlights offer more profit to retailers through strategic material sourcing, strategic manufacturing partnerships and efficient logistics systems.

Design. LUX-PRO flashlights have unique and distinctive styling that reflects quality, functionality and durability.

Engineering. LUX-PRO flashlights are engineered with the latest methods and technology in power supply, thermal management and optical efficiency.

Standard Batteries. Most LUX-PRO flashlights use only standard AAA, AA, C and D batteries.

Limited Lifetime Warranty
